

SONY®

This rack-mount CD player with BSL spindle motor lets you find the start of a song or back cue by frame. The wide variety of remote interface options and word sync inputs provide convenient signal transmitting. In addition, CD TEXT format compatibility makes it possible to receive text data through the RS-232C port.

NEW

CDP - D 5 0 0 COMPACT DISC PLAYER

FEATURES

- ▶ **Precise Cueing by CD Frame Unit**
The Rehearsal function allows for precise cueing via the Jog Dial, while the Cue/Standby button offers back cueing capabilities.
- ▶ **CD TEXT Compatible**
The CDP-D500 is compatible with the CD TEXT format, encoded with various information. This text data can be retrieved with the RS-232C port.
- ▶ **Auto Cue/Auto Pause**
Use the set-up menu to adjust Auto Cue signal detection to select five different thresholds.
- ▶ **Vari-Speed of $\pm 12.5\%$ (0.1% Increments)**
- ▶ **Remote Interface Versatility**
The CDP-D500 works with a variety of remote interface options, including RS-232C, GPI and the supplied wireless remote control.
- ▶ **Easy Operation with Shuttle and Jog Dial**
- ▶ **Index Cueing Capability**
- ▶ **Built-In Word Sync Input**
- ▶ **R-Core Transformer for Reduced Leakage Flux**
The CDP-D500 incorporates an R-Core Transformer to reduce leakage flux, aiming for maximum sound quality.
